Friday 5 August 2005

6.00pm (Refreshments will be provided afterwards)

Artificial Intelligence: In your Life Today

Professor Aaron Sloman, *Professor of Artificial Intelligence and Cognitive Science, The University of Birmingham,*

Professor Wolfgang Wahlster, *Director and CEO of the German Research Centre for Artificial Intelligence DFKI, Saarbruecken, Germany and Professor of Computer Science at Saarland University, Germany*

Science fiction books and recent movies focus on intelligent robots, but Artificial Intelligence covers a much broader scope: we study human and artificial minds, aiming to produce intelligent computing systems which have a direct, beneficial impact on the lives of countless people. How do we build systems which can undertake intelligent activities? Where are these systems, and how can they change lives for the better?
